

CHINA DOES NOT WANT MORGAN IN RAIL LOAN

Registers Protest Against Him in Affairs of Government by Refusing to Let Americans Take Part.

(By W. S. Coach)

WASHINGTON, March 3.—China has registered her protest against the presence of J. Pierpont Morgan in the American state department.

This protest is the final, definite, positive refusal to let American bankers participate in the Hankow-Szechuan railway loan. It was not because the Chinese have a prejudice against American bankers but that they do have a prejudice against Morgan.

It was not for American bankers, but for the banking house of J. P. Morgan & Co., that Secretary Knox fought for this loan. The Chinese knew this as well as do well-informed people in Washington and Wall Street.

Morgan handled the deal, six years ago, when the Hankow-Canton railroad, the Brice concession, changed hands. The Chinese have peculiar notions of business honor.

Morgan turned loose before some astonished slant-eyes about the whole bag of tricks which constitute American financial magic and legions.

In the end the magician bowed himself out smiling with the profits, and the Chinese were left to hold the bag.

While the Chinese financiers have gunnily kept quiet, they have made it plain that it is "never again" for them as far as J. P. Morgan is concerned. These men have blocked American participation in the Hankow-Szechuan loan.

As a result of this, American diplomacy has all but "lost face" in the Chinese empire. Americans have lost a chance for a good investment, too.

This rebuff from China and her financiers is the climax in a series of bad breaks by the state department since the peppy little Pittsburg lawyer, Knox, took charge of it.

The door has opened, and Root kept open, in Manchuria has been slammed in the American face. Japan has lightened her grip on Manchuria.

China has lost the feeling that the great American nation is her protector, and, by the same token, a good merchant from whom to buy goods.

To the south, Central America is boiling over. South America is angry and suspicious and Mexico is indignant and uneasy.

The Crane incident is well known. President Taft appointed Charles R. Crane of Chicago minister to China without consulting Knox before making the appointment. Knox says he will run his own department or resign. Moreover, Crane, consulted quietly by friends of J. P. Morgan

HOW FAMILY IS ROBBED WHEN MEMBER DIES

Most Heartless Graft on Earth—Material in \$40 Coffin Can Be Bought for \$6.00 All Told.

In a current issue of the New York Independent, Charles M. Sheldon, the well known Topeka minister, has a striking article labeled "The Cost of Dying." It is food for reflection.

In the first place, he was probably to blame for getting married when he did. But this has nothing to do with the purpose of this story. As a matter of fact, he did get married, for reasons which concern him more than anybody else, and when his story begins he had two beautiful children, a girl of 8 and a boy of 5.

He was an average country school teacher in the grades, with a salary of \$56 a month. Teaching eight months in the year, and having an unusually good manager in his wife, he actually lived on the salary, and sometimes put \$5 a month into the savings bank.

It should be said at this point that he was 25 years old, and the savings had reached the sum of \$85 so far.

One night the little girl was suddenly taken ill. A doctor was called the next day. He called ten times, and then advised taking the child to the hospital for an operation.

She was accordingly taken there and, after five days, was operated upon, apparently recovered from the operation, but died seven days later.

The father went to the undertaker to buy a casket. The cheapest casket in the place was \$25. The next in price was \$40. The father took that because the \$25 article looked cheap.

A lot in the cemetery was next purchased at 50 cents a foot. Just ground enough for one grave 8 by 5 feet, cost \$20. After the man and his wife had recovered from the heart shock, and could count up the total in cold figures, this is what they found it to be—that is this is what the cost of dying is in one American family.

J. T. HOY March 8 Galley 4.

Doctor, ten visits at \$3 visit... \$30.00
Hospital expenses, 12 days... 28.00
Surgeon's fee for operation... 125.00
Casket... 40.00
Services of undertaker... 10.00
Cemetery lot... 20.00
Hearse... 5.00
Two carriages at \$5 each... 10.00

Total... \$268.00

The father could not bear to think of owing for the casket and the immense expenses of the funeral, so he drew out the entire savings from the bank, amounting to \$85, and paid for the casket, the cemetery lot, the undertaker the hearse and the two carriages making exactly the entire amount. For the balance, he had on hand from his month's salary enough to pay the doctor \$10, leaving unpaid

and his crowd, said he meant to represent the United States in China and not a banking syndicate. Morgan appealed to his good friend Knox. Crane was hauled back to San Francisco and ignominiously fired. He appealed to his friend Taft, but Taft stood by Knox and Morgan.

the balance of \$173. Counting the teacher's salary at \$56 a month for eight months of the year is a total of \$448. Subtracting the 173, leaves as a balance for a year's living, \$275.

But this American father and mother, when they were able to talk composedly, together discussed the matter of the casket. The young man being 35 years of age, and above the average of intelligence, having spent five years of his young manhood as a carpenter, and knowing something of the cost of lumber, in his spare moments, when he was able to figure on it, reckoned that he could buy for \$15.00 at the nearest planing mill, all of the material for the making of such a casket as he bought for \$40. His wife, who had been before her marriage, a dressmaker in a large furnishing establishment, figured that the pine plank, even at the high price of \$1.25 a yard, would cover the entire casket, including the lining, for less than \$4.

In other words, this one item in the cost of dying could be easily cut down to \$6 or \$7 at the outside.

As to the surgeon's fee, they asked no questions, neither considering the expenses at the hospital nor the doctor's visits. Land to be buried in is always expensive. People who never rode in a hearse in their life while they were living would naturally be a little surprised to have to pay \$5 to be carried in one when dead, even the distance, as in this case, of less than one-quarter of a mile.

This is not a story out of a book, but a story out of life. And one good in mathematics can easily figure how long it will take this young man to pay the balance of the cost of his child dying—that is, the \$173 out of a salary of a total of \$448 a year. This is the price the American people pay some of the splendid young men and women of this country for teaching their children. Some go, more, some less. Those who get less ought not to get married. If they do, it is at their own risk. If they have children, and these children occasionally die, then they must pay the price. Children come high, especially when they get sick and have to be buried. But can the American people give any reason why they should have to pay \$40 for a box to be buried in, when the box could be made for about one-eighth of the price? Also it is in order to ask several other things, but life is too short. Let us eat, drink and save money, for tomorrow we die, and we may need the money to pay the cost of dying.

HURD IS PROMOTED.

(Globe Silver Bell)

E. M. Hurd, who has held the position of manager of the Gila Valley Bank & Trust company of this city since the establishment of the local institution has been promoted to the position of manager for all of the branches of that company in Arizona.

Mr. Hurd came to this city when the Gila Valley took over the old Miners and Merchants bank in 1905. Since that time he has been continuously in charge of the local bank, as well as looking after the interests of the other banks of the concern to a certain extent. He has witnessed the building of the fine new home of the Gila Valley bank in this city and the establishment of the Miami branch, and has done much toward increasing the business and general standing of that institution in this city.

Mr. Hurd will have charge of the five banks, located in Globe, Safford, Clifton, Morenci and Miami, and will continue to make his home in this city. R. E. Moore, former cashier of the Morenci bank, will succeed Mr. Hurd as local manager of the Gila Valley bank.

Facts For Sick Women

We know of no other medicine which has been so successful in relieving the suffering of women, or secured so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every woman you meet has either been benefited by it, or knows some one who has.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless.

The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity.

Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy.

Minneapolis, Minn.: "I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women, I felt sure it would help me, and I must say it did help me wonderfully. Within three months I was a perfectly well woman."

"I want this letter made public to show the benefits to be derived from Lydia E. Pinkham's Vegetable Compound."—Mrs. John C. Moldan, 2115 Second St., North Minneapolis, Minn.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

DOUGLAS NEWS AND PERSONALS

Mrs. Paulus' Funeral.

The funeral of Mrs. W. F. Paulus, wife of the commercial instructor at the high school was held at the Christian church this afternoon and the body will be shipped to her former home in Kansas. Mrs. Paulus had been married about two years, shortly before her coming to Douglas, was a devoted wife and made many friends here. The sympathy of all goes out to Mr. Paulus in his bereavement.

Improvements at Bank.

The First National Bank yesterday had erected cages for the tellers. There are two of these cages, which were ordered some six weeks ago and arrived the latter part of last week. Yesterday being Sunday and the bank closed advantage was taken and the cages put in.

R. J. Wilson is a visitor from Bisbee.

W. R. Morris of Bisbee sojourned

In Douglas over Sunday.

Mrs. Jane E. Harrison is able to be out again after several days' illness.

Glen Mays of Bisbee was a Sunday visitor, returning to Bisbee this morning.

E. W. Close, representing the Kay-Tee film exchange, is in the city on his usual business trip.

Rev. E. W. Simonson returned this morning from Tombstone where he held services last evening.

J. G. Cowan came down from Sol McDonald and wife came in from the ranch Saturday night and spent Sunday at the Queen Hotel.

Mrs. C. Irving, and family of seven, left today for San Francisco where they will reside in the future.

"Hot Air?" No!

We wish to advise the public that we have just installed two new splendid refrigerating cold air machines in our Bisbee and Lower markets and hereafter the meats our patrons receive will be kept just above freezing point in our modern, sanitary COLD AIR ROOMS. Storage rooms cooled by refrigerating machines are kept in far better condition than those cooled by ice, as those cooled by ice get moist, and moisture has a tendency to mould meat.
